V-Shape Ⅲ

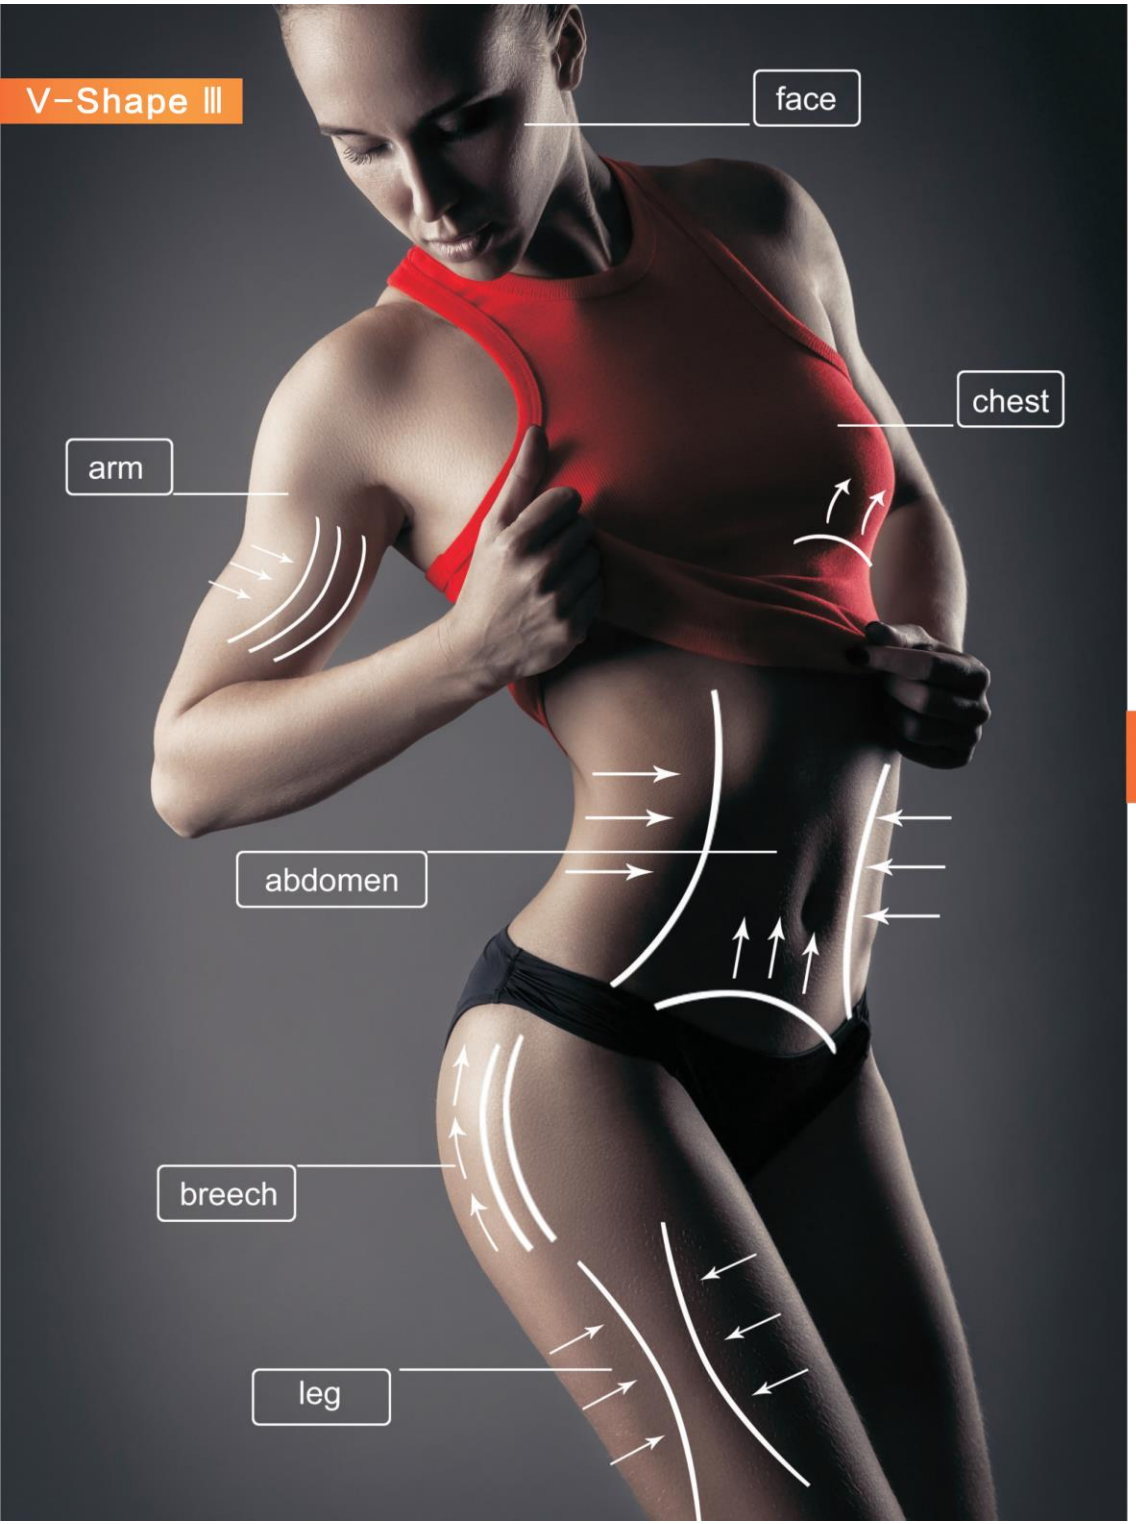
Circumference Reduction

Cellulite Reduction

Body Contouring

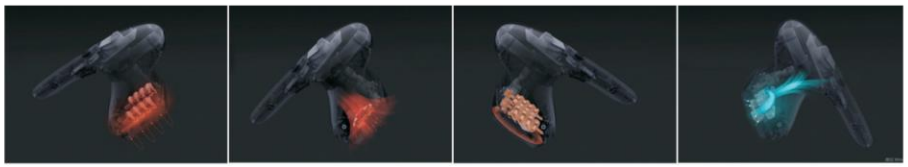
Skin Tightening

Breasts enlargement&Buttocks lifting



Principle

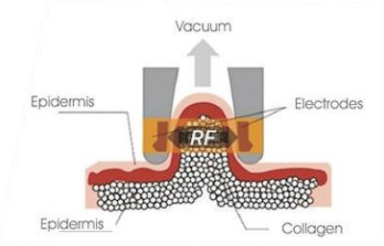
V-Shape III is a powerful device for body shaping and wrinkle removing. It integrates 5 technologies including RF (Radio Frequency), VAC (Negative Pressure), infrared light energy, mechanical rolling, and skin suction. Through the aerobic exercises such as suction, pinching, and massaging of connective and gat tissues, the fat cells, their surrounding connective tissues, and the underlying dermal collagen fibers can be heated. Combined with 65nm near infrared and radio frequency thermal energy physical therapy, the efficient heating and vacuum can stimulate growth of new and better collagen and elastin, which results in the localized reduction of skin laxity and body volume. It can also improve the overall skin structure and texture.



Technical advantages

① Vacuum Technology

It is used to absorb the cellulite in a soft and uniform way, causing no damage to the skin.



② Multi-directional mechanical rollers

The wave-like massage can speed up blood circulation and lipolysis.

③ Unique 650nm-1200nm Infrared Light Energy

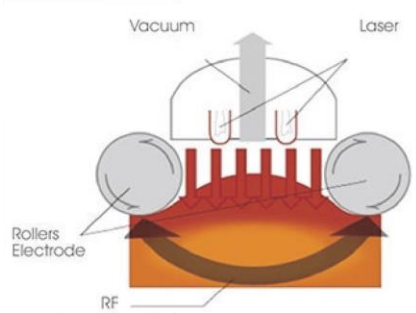
The optimized energy can accurately target the dermis, increasing the safety of the treatment.

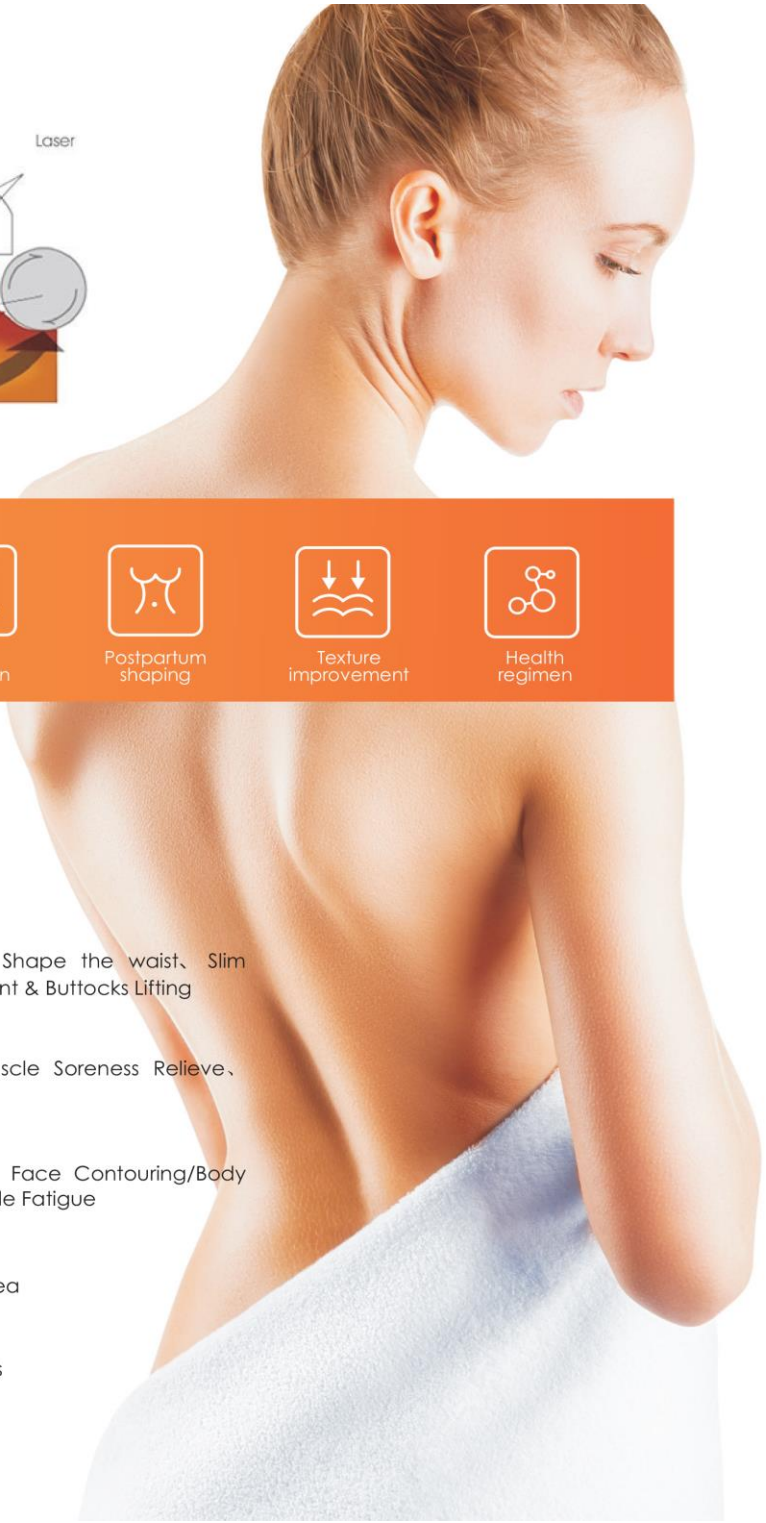
④ Bipolar Radio Frequency

The RF can quickly enter the deep skin layer to establish a predetermined temperature, melting fat and increase collagen generation.

⑤ Suction Technology

The suction can assist the RF energy to penetrate the skin and ensure the skin to be heated evenly and safely.





Body shaping | Size reduction | Postpartum shaping | Texture improvement | Health regimen

Application:

- **Fat reduction**
  Tighten the abdomen、Shape the waist、Slim limbs、Breast enhancement & Buttocks Lifting
- **Health regimen**
  Meridian Treatment、Muscle Soreness Relieve、Physical therapy
- **Texture improvement**
  Skin toning/Smooth skin、Face Contouring/Body contouring、Relieve Muscle Fatigue
- **Wrinkle removal**
  Neck、Forehead、eye area
- **Cellulite reduction**
  Stretch mark、obesity lines

10 unique luxurious applicators

- Select the applicator according to the treatment areas, materials used, and demands. It can easily achieve perfect body figure, weight loss, skin tightening, and skin texture improvement.
- Reduce the treatment time and number of courses to achieve the desired effect.

Handle3

Handle4/5/6

Handle7/8/9/10

Treatment area: Back, Abdomen, Buttocks, Thigh, Shank

Treatment area: Waist

Treatment area: Arm, Neck

Treatment area: Face,Eye

Treatment area: Chest, Hip

Instant: The body volume is significantly reduced after operation. The effect is instant.

One stage: The average body volume reduction is 3-6cm, and the fine lines are also reduced.

Two weeks: Accelerate metabolism, realize weight loss, waist and abdomen tightening.

After 30 days: The body volume reaches the desired target. The skin is clear and bright, and the contours of the body stands out.
